## ABOUT US

# GRESB, the global ESG benchmark

Transitioning to a sustainable world is a fundamental challenge that we must face together.

GRESB is a mission-driven and investor-led organization that provides actionable and transparent Environmental, Social and Governance (ESG) data to financial markets.

We collect, validate, score, and independently benchmark ESG data to provide business intelligence, engagement tools, and regulatory reporting solutions. The resulting benchmark scores are based on a rigorous, consistent <a href="mailto:methodology">methodology</a> so investors and managers can evaluate the ESG performance of a given fund.

Our vision

An investment industry that plays a central role in creating a sustainable world

Our mission

To provide financial markets with actionable insights, ESG data and benchmarks

developers, infrastructure fund managers and asset operators use GRESB to assess their ESG performance. This is done in a standardized, globally recognized framework so both investors and managers can act on ESG data and insights.

> More about the assessments

managers need reliable ESG data to paint a more comprehensive picture of their current and future financial risks and opportunities. GRESB can help:

- Measure your ESG performance
- Improve investor-manager engagement
- Compare your assets against peers
- Identify areas for improvements
